*The SDWLP must allocate a minimum of 15% of the available funds in each fiscal year to public water systems that regularly serve fewer than 10,000 persons. Communities marked with an asterisk meet this criterion. The policy for allocating funds to small communities is included in the SFY 2007 funding policies.

**Projects that have a "Yes" in the Elig. for 33% of Market Interest Rate column are projects of municipalities with a population less than 10,000 and a median household income (MHI) that is 80% or less of the state's MHI.
